Yearbook and Final Averages
2024-2025 Season

MEMBERSHIP OPTIONS

What type of membership is right for you?

- **Adult Standard:** The most common membership. Most USBC leagues are standard leagues.
  $15. National USBC + $10. SEPA USBC Local = $25. Total
  Members of other local USBC Associations only pay the $10. (Local dues)
  Seniors *bowling in a senior league* pay only $5. for local dues ($20. Total)
- **Adult Basic:** For short session leagues only, 16 weeks or less. This membership can be purchased through the league only and is only good for that one league. Honor scores do NOT qualify for awards.
  $10. Total ($7. National USBC + $3. SEPA USBC Local)
- **Youth Standard:** For full-season youth leagues. Bowl a full season and receive great benefits!
  Only $4. For National USBC Membership! Earn scholarships from the moment you join!
- **Junior Gold:** For USBC Youth Standard Members, no average requirement for girls or boys. Eligible for special tournaments, scholarships, a member gift and a shot at Junior Team USA. There is a U12 and U15/U20 version of this membership.
  $10. U12 - $30. U15/U20
- **Bowlopolis:** For regular or bumper leagues of beginning bowlers. Benefits include a progress report and awards. Free to bowlers 8 and younger prior to August 1 of the current season (beginning 2017-2018 season). Only $3.50 to join!

Sport or Challenge Averages Adjusted to Standard

The Sport and Challenge Conversion Chart is used to convert a bowler's Sport or Challenge average to a Standard average, and vice versa, for leagues and tournaments. The conversion chart is not considered a "re-rate" of the bowler. Its purpose is to allow for a fair adjustment so the bowler's entering average is what would be expected of the bowler on the lane conditions of the league or tournament.

227	239	250
228	239	250
229	240	251
230	+11 pins	+22 pins

Note: If converting Standard to Challenge average, and your averages is not listed, move up one (1) pin and convert. For example, a 174 Challenge average converts to 163 Sport average and 189 Standard average. If the average is listed twice, convert to the higher of the Sport and Challenge averages. For example, a 214 Challenge average converts to a 199 Sport average and 227 Standard average.

LEAGUE DESIGNATION FAQ

1. **There are numbers on the conversion scale that are missing, i.e. 134 for Standard. What do I do if I have that average and am converting to Sport?**
   The "missing" numbers are due to the fluctuations in average differences based upon skill level for bowlers competing on Standard conditions versus Sport or Challenge conditions. If your raw average is not on the chart, move up one pin and then utilize the chart.
   Similarly, if your adjusted average has multiple scores, you will use the higher of the options.

2. **Why is there a new conversion chart for Standard averages converting to Sport?** The previous Sport Adjustment Chart only factored going from Sport averages to Standard averages; it did not incorporate going from Standard to Sport. Data proved there were significant differences for bowlers at the high and low ends, which previously was not taken into consideration. For example, a bowler with a 240 Standard average previously equated to a 240 Sport average, as any average over 228 was the same. This is not the case, as the new chart takes both directions of conversion into consideration.

3. **If I must use a converted Sport or Challenge average in a tournament, is this considered an adjustment under Rule 319c?**
   The Sport and Challenge classifications are automatic conversions, just as converting averages from Sport to Standard were in the past. They are not adjustments.

4. **How does this affect our league if we use a Red, White or Blue pattern?**
   Leagues will choose one of three designations for lane conditions – Standard, Challenge, or Sport. Leagues utilizing a variety of conditions, none of which meet the difficulty of Sport, should choose Challenge.

5. **How is the determination made to investigate a "house shot" league's averages to see if the league should be reclassified as a Sport or Challenge condition?** Information has come from a variety of places, most commonly from fellow bowlers or tournaments reporting a suspicious average of a bowler. The membership team then researches the league, including comparing averages of bowlers who also have a Standard average.

6. **What is the procedure for initiating an investigation into determining if a league's classification is correct?**

   An email to sportbowling@bowl.com is the easiest way.

LEAGUE DESIGNATION FAQ
(cont.)

7. **When do the new average conversion charts take effect?**
   The classification for leagues will be reported on the league application for 2017-2018 leagues, which is any league beginning after Aug. 1, 2017. Leagues in the 2016-2017 season will be re-classified, as well, as it will impact participation in tournaments and leagues for the 2017-2018 season and beyond.

8. **What if a bowling center's averages are lower across the board, compared to another center in our association? Will every bowler from that center be subject to average conversion?**
   The difference from center to center, in terms of difficulty, is an issue that bowling has always faced. The introduction of the Challenge lane condition classification does not resolve this issue. If the disparity among averages from one center to another is large enough to be reflective of the Challenge conversion chart, those leagues should be marked as such to then show proper average reflection when bowlers from various centers compete against one another.

9. **Will all leagues have their averages analyzed to ensure they are selecting the correct classification?**
   An end-of-season analysis of leagues will be run, once averages are turned in for most all leagues.

10. **Should leagues and tournaments review their entering average rule(s) to include both conversion charts?**
    Yes, leagues and tournaments should look at their rules to ensure conversion of averages is covered.

11. **Can a league or tournament use "regular" averages only and not utilize Challenge or Sport Averages?**
    The default USBC rule indicates the bowler's highest average is to be their entering average. There is the small possibility a bowler's highest average is in a Sport or Challenge league. A tournament can choose to accept the highest of either the highest average, with the adjustment being considered as well for a Sport or Challenge league.

12. **What will be the new designations for leagues going forward?**
    Standard (house), Challenge, and Sport. Standard averages will be averages without an icon on Find A Member.

13. **I feel my league has been improperly classified. What is the procedure for appealing the designation?**
    An email should be sent to Rules@bowl.com with all supporting documentation for the claim.

STRING PINSETTER RESEARCH

USBC has completed its study on certified string pinsetters after finishing its scoring research report in November 2023, with the conclusion that there is no statistically significant difference between the scoring pace of USBC-certified string pinsetters and traditional free-fall machines.

Therefore, an average conversion between the pinsetter types will not be necessary and, effective immediately, USBC will update its playing rules to allow for the averages between pinsetter types to be interchangeable provided the string pinsetter has been certified by USBC.

USBC already had published a study and certified string pinsetters and string pin bowling as an independent category of equipment and competition, separate from free-fall machines, which came into effect Aug. 1, 2023, for the 2023-2024 season.

During the summer of 2020, the United States Bowling Congress Equipment Specifications and Certifications team began a comprehensive research study on string pinsetters, specifically looking at the scoring and pinfall variables between non-approved string pinsetters and USBC-certified free-fall pinsetters.

All aspects of the pin area, including pinsetters, pins, pin deck and pit area, play a critical role in scoring.

In the United States, the overwhelming number of USBC-certified leagues and tournaments use average-based divisions or handicap systems. Therefore, equipment that impacts scoring variables must be standardized from center to center in order to compare certified averages for competition.

Note: There are currently no USBC certified pinsetters in Southeast PA

Revised 11-9-2023

As announced at the 2023 USBC Convention in Las Vegas, as of Aug. 1, 2023, after years of research, specifications have been set for string pinsetters, and certain string pinsetters have become eligible for certification as a separate category of competition. At this time, this includes four (4) specific models of pinsetters. To see the list of those pinsetters,

Pinsetters installed prior to 2023 are likely not eligible for certification as they do not meet the specifications for approved products. If you have a center that has converted to string pinsetters in the last few years, please notify us by emailing certifications@bowl.com. Please include the center name and certification number. If we haven't yet, we may contact you or the center to work on verifying the product's approval status.

Continued research compiled by USBC has resulted in the determination that averages established on USBC approved string pinsetters are comparably equivalent to averages established on free-fall pinsetters. Therefore, effective immediately, while the requirement that averages established on string pinsetters must be reported and will be maintained separate from averages established on free-fall pinsetters, averages established on string pinsetters will be allowed to be used for entry purposes into competitions conducted in centers with free-fall machines.

In order to help you navigate issues that will arise due to the decision of USBC to certify String Pin Bowling effective Aug. 1, 2023, Rules has compiled the following information for your reference.

No center(s) in our jurisdiction have String Pinsetters:

However, you may come across situations where an individual(s) enters a league/tournament with only an average established on string pinsetters. For those situations, consider the following:

USBC recognizes averages established on both free-fall pinsetters and USBC-certified string pinsetters as official and acceptable for use in all leagues or tournaments.

EQUIPMENT SPECIFICATIONS

Note: Bowling balls can only be cleaned BEFORE or AFTER league or tournament competition. The following products are not allowed to EVER be used for cleaning bowling balls.

NOT APPROVED EVER
Product
Acetone
Armor-All
Cutex (acetone OR non-acetone nail polish remover)
David Greco Cleaner
Dull It by INX Corp.
Ethers, esters and ketones (MEK)
Kerosene, gasoline, other fuels
Master Ball Cleaner by Master Industries
Most commercial solvents (xylol, lacquer thinner, mineral spirits, chloro-form, methyl hydrate)
Pure Wash Ball Wash by LMB International (Lane Masters)
Ruken Foaming Ball Cleaner by RU Institute
SaniHome Ultra Bowling Ball Cleaner by SaniHome
SS-25
Storm Sanitize by Storm
Strike Power by Veterans Products
Ultra Clean by Tenth Frame
Ultra Tac Ball Cleaner by Bowling Ball Factory
Varsol
WD-40
